Intelligent Windows and Doors

approved by

The worlds favourite
lock since 1843

The Sentry Surveillance System

with optional 10 year mechanical warranty subject to application and approval

Approved by **Yale** and supported and approved by **Total Hardware**, we are delighted to bring to you the "Sentry Surveillance, Intelligent Windows and Doors".

Your new windows and doors will come intelligent ready as standard, with Sentry Surveillance locking mechanisms and sensor carriers fitted ready for you to configure, resulting in a complete surveillance system for your property.

The system has been developed by Yale; however Total Hardware have worked on a new "Quadlock" twin cam SBD device that will see an overhaul to our suit of locking devices.

Once you've purchased your hub and sensor kits, download the free App from the App store or Google, once you have set up your system, this is then free to use with no subscriptions, using the dedicated app, the system is Geofenced, once your windows and doors have been enabled, your phone will alert you, if you break the perimeter, should you have left one of your windows or doors open. Whether walking the dog or driving to the shops, you'll be safe in the knowledge you can check that your home is secure.

For more information on the full system, login to Yale direct to take a look around at www.yalehome.co.uk/senscheck-door-and-window-sensors

Easy to install, Sentry Door and Window Sensors sit seamlessly within your Yale smart doors and windows. Check-in on the status of your home, all through the touch of a button. Sentry works via the 'Yale Home' App, allowing you to:

- Check if your doors are open, closed, locked or unlocked.
- Check if your windows are open, in the vented window position or closed.
- Arm or part-arm your home.
- Get reminders via geo-fencing alerts.
- Receive tamper alerts.
- Receive chime notifications.
- Amazon Alexa, Google Assistant and Philips Hue.
- Add additional Sync Alarm Accessories to make the ultimate home security system.

[Click here for a video on Quadlock](#)

[Click here for a video overview](#)

Please note, Bi-Folding Windows, Bi-Folding Doors, Tilt and Turn Windows, Stable Doors and Patio Doors are currently under development with Yale, however you can retrofit face fixed sensors which will enable you to upload these into your App for a full complement of products in your home. Please note, these products only display open and closed positions in your App. Available direct from Yale via the links in your QR Codes located inside your windows and doors.

[Click here for a demo of this option](#)

Sentry Security Lifetime Warranty

As an optional upgrade to our exclusive mechanical warranty, we are delighted to announce the "Sentry Lifetime Security Warranty" (supported and approved by Yale), to strengthen our offering further, as an exclusive upgrade to your window and doors the benefits of which are:

Up to £1,000 towards home insurance excess.
Up to £1,000 towards repairs or replacements.

For orders to be eligible for "Lifetime Security Warranty", please note these goods need to have been specified as Secure by Design at the point of sale, together with an order placed to the manufacturer by the installation company stipulating the upgraded security options, this must include all high security Yale Hardware and 3 star door lock cylinders, the manufacturer is not responsible for the sale of goods to the consumer, this is the responsibility of the installation company to specify these products, no lifetime warranty is available for goods that have not been upgraded to Secure by Design Yale products at the point of order with the manufacturers.

Please note, the Lifetime Security Warranty and extended mechanical warranty offerings are subject to installer application and being an approved installer of the scheme. It's the consumers responsibility to ensure that all products are maintained in conjunction with the maintenance guidelines together with the terms and conditions as set out in the Homeowner Guide, copies of which are available via the QR Code within your windows and doors. The warranty does not cover breakage or failure due to misuse or neglect of maintenance of any moving parts.

Sentry QuadLock- Incorporating Intelligent Window System

Sentry QuadLock, a state-of-art window locking solution with the option to seamlessly integrate with our Sentry Surveillance System. This innovative twin cam window lock is manufactured to deliver superior Intelligent security for your windows, providing next-level protection for windows. The intelligent design features a one-piece zinc centre keep, to enhance compression and presents an aesthetic of supreme security for the consumer.

Compatible with the
Sentry Surveillance System

Sentry Door Lock

Check the status of your home, anytime, anywhere.

Designed, developed and tested in the UK to Yale's exacting standards, this lock faultlessly delivers high-performance security, improved ease of use and an impressive service life.

Complementing a wide range of applications including aluminium, PVCu, and composite doors, the Sentry Door Lock offers fantastic versatility. Providing PAS24 security as standard when incorporated as part of a door set, it boasts the reassurance, reliability and outstanding features expected from Yale – the world's favourite security brand, securing homes for over 175 years.

The Sentry Door Lock hook and pin unit has been carefully positioned within 100mm of the pre-compression rollers.

Pre-compression rollers designed to assist with draught and weatherproofing.

Sprung and unsprung centre cases to suit front and back door applications, now with centre anti-separation hook as standard.

Easy to use push-in latch snib feature to prevent accidental lock-outs. Plus, reversible latch for easy handling.

Dual Colour Available

Standard Colours

A range of 9 external colours with white interior as standard. Coloured both sides is a cost option.

Premium Colours

Our range of 38 premium colours finished in a Semi-Matt, Satin or Semi-Gloss sheen dependent upon colour.

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, please enquire about a colour booklet.

*Some RAL colours containing luminous elements are unavailable

PAINT allows us to colour match anything

Yes. Anything.

With our high-performance paint technology we can offer any colour door you desire.

PATiNA

An exciting range of patina colours are available exclusively on the Monza II, Eaton, Knightsbridge, Tatton, Gleneagles, Oulton, Grove and Kings door styles.

Frame Colours

Eco Composite Doors

Your front door is the face of your property. It's the first thing you see when you arrive home in the evening, the last thing you see when you leave in the morning and the sight that welcomes your visitors setting their first impression.

Thermal Performance

Eco composite doors are thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than any other option on the market, meaning your entranceway is more thermally efficient with Eco Door.

Our full door range complies with Document L and the requirements of the current Building Regulations.

The Eco composite door offers a truly appealing entrance for any home, with a high-definition smooth or grained GRP outer skin that will look stunning for years to come.

The door offers stability from the elements with protection against any water ingress. The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills in the home in comparison with any other door on the market.

Security

Ultra Low Threshold

A new generation of low PVC threshold

- An alternative to aluminium ✓
- Double gasket seal for enhanced weather tightness ✓
- Fully welded corners ✓

Composite Door PVCU Threshold

We take security very seriously. The Eco composite door comes with security features which stand up to current and future security standards, including PAS 24 in line with Approved Document Q. We recommend the use of multipoint locks (locks should always be engaged so the door is not left just on the latch) and security hardware including TS007 high security cylinders and handle combinations and TS008 letterplates.

A slam shut lock option is available for a contemporary look, however, please note that slam shut locks should be used with caution as the operation of these may not suit certain individuals. We recommend an aluminium lock strip is used in conjunction with heritage locking systems.

Important notice - when selecting this threshold option, you confirm and acknowledge you understand there is only 9mm from the bottom of the door sash to the bottom of the outer frame.

It's your sole responsibility to ensure you have sufficient clearance from the underside of the door sash to the floor.

Texture Glass Range

Pilkington Texture Glass gives you a stylish range of attractive options and can be used in any of our doors or side panels.
